

ISGE Annual Meeting 2020

Hotel Amphora Split, Croatia, May 27th to 30th 2020

2020 SPONSORSHIP PACKAGE

ISGE 2020

WELCOME MESSAGE

Dear colleagues and friends,

It is my great privilege and honor to invite you to participate at the International Society of Gynecologic Endoscopy (ISGE) Annual meeting that is taking place May 27 - 30 2020 in Split Croatia.

ISGE is an international society with members from 91 countries and our primary mission is promotion of minimally invasive gynecologic surgery, exchange of knowledge and education of physicians throughout the developing world.

After our very successful meeting in Opatija, Croatia in 2016, that gathered over 400 physicians from all over the world, ISGE is partnering again with the Croatian Society of Gynecologic Endoscopy to organize the meeting in Split in 2020.

My former country of Croatia is the prime tourist location in the world with its beautiful coast line, pristine rivers and lakes, great food at affordable prices and rich cultural heritage. The best time to visit Croatia is from May to October.

Why not join us next year in Split and bring your family along? Your family can enjoy the beach and explore beautiful city of Split with its rich historical heritage while you meet with your colleagues from all over the world. This meeting will bring together experts from many parts of the world and we look forward to the educational exchange of ideas, techniques and to the interaction with colleagues which will ultimately benefit our patients.

Less than two hours' drive from Split you can reach Plitvice Lakes National Park that is on UNESCO's heritage list with its seven lakes on different levels and crystal-clear waters. Just short distance from Split (one hour by ferry) is the beautiful town of Hvar, on the Island of Hvar, surrounded by a small archipelago of islands with pristine beaches, ancient architecture, great dining and most popular night scene in Croatia. You can drive along the Adriatic coast or continue by ferry to reach the medieval city of Dubrovnik where Game of Thrones was filmed. Dubrovnik is located in southern Croatia and is considered one of the most beautiful cities in the world and popularly named "The jewel of the Adriatic."

I hope that this conference will achieve its goals of bringing us together and help us broaden our knowledge to become better physicians and take best care of our patients.

Sincerely,

Resad Paya Pasic M.D., Ph.D.
ISGE President

• Dr Paya Resad Pasic
ISGE President

A stylized, handwritten signature in dark ink, appearing to read 'Pasic'.

ISGE 2020

ISGE WHO WE ARE

WHO IS ISGE?

The International Society for Gynecologic Endoscopy (ISGE) was formed in 1989 by a group committed endoscopists from Europe and North America, who were soon joined by others from all over the world. They recognized the need for a scientific group who would meet at regular intervals to share their knowledge and expertise in gynecologic endoscopy.

WHAT IS OUR GOAL?

ISGE's goal is to establish an international forum for the exchange of information and new ideas between gynecologic endoscopists. ISGE provides leadership and unprejudiced academic excellence in this highly important field, they promote safety and competence in gynecologic endoscopy through education and Training Programs around the globe and they scientifically investigate and evaluate new endoscopic techniques and procedures to support our members in supporting women's health everywhere.

- Bruno Van Herendael
- ISGE Medical Director
- The International Society for Gynecological Endoscopy

A handwritten signature in blue ink that reads "Bruno".

WHAT IS THE ISGE ANNUAL MEETING?

The ISGE meeting brings together members and healthcare professionals to learn and apply key advances in the field of Gynecologic Endoscopy. An ISGE annual meeting is more than a scientific meeting; it's also an eventful get together coupled with an unparalleled networking opportunity and exposure for you and your company.

WHY ATTEND OR SPONSOR US?

ISGE is at the forefront of key techniques, procedures, education and training in the field of gynecologic endoscopy. We are one of the leading associations the world in Women's Health. This meeting will provide you access to these leaders, students, partners and other healthcare professionals.

ISGE 2020

OUR EVENT PARTNER

The Croatian Society for Gynecological Endoscopy

The Croatian Society for Gynecological Endoscopy was founded in 1999. In Zagreb.

President of the Company: Prof. Miroslav Kopjar, MD, PhD

Vice-president of the company is Prof. Siniša Šijanović, MD, PhD

Secretary, Dr. Zoran Pitner, MD, PhD,

Treasurer Ass.Prof. Neven Tučkar, MD, PhD

OBJECTIVE OF THE COMPANY

Minimally invasive surgery is a method widely accepted worldwide and by surgeons and by patients. It is a technique of a future that does not have a rightful place in Croatia, so it is not included in undergraduate or postgraduate classes. Therefore, we consider that the education of gynecologists in this area is necessary, and therefore we decided to establish a society in the medical Choir which was immediately after the establishment approached the organization of the course from gynecological endoscopy.

Wednesday 27.05.2020

Workshop Day

Pelvic floor course

As ISGE is a predominantly a society for endoscopic surgery we will focus on laparoscopic procedures for pelvic organ prolapse repair. In times of vaginal mesh and sling bans native tissue repair and the endoscopic approach are in the focus as an alternative to proceed with less mesh use.

The course provides basic knowledge in anatomy and diagnostics as well as case discussion and step by step teaching for procedures. Let's learn from each other!

- Basic anatomical changes in pelvic floor and correlation to patient complains
- How to perform a proper diagnosis to ensure a tailored treatment
- What means defect oriented strategy?
- 3 ways to approach the space of Rezius.
- Laparoscopic colposuspension and paravaginal repair step by step
- What is evident in laparoscopic sacro-colpopexy (LSC)
- Pectopexy step by step (a standard)
- Native tissue repair - laparoscopic colporrhaphia facts and technique
- Case discussion or complications in pelvic floor repair

Tutors:

Guenter K. Noé / Michael Anapolski / Ajay Rhane

Sponsored by FEG Aachen Germany (Dynemesh)

DynaMesh[®]

Wednesday 27.05.2020

Workshop Day

Hysteroscopy & Uterine Ultrasound – Building Bridges

08:00 – 09:00 Welcome / registration

09:00 – 09:10 Introduction

09:10 – 09:30 What's new in gynecological ultrasound (focus on the uterus)

09:30 – 09:50 What's new in hysteroscopic instrumentation

09:50 – 11:00 Fibroids

Case report

Bridge 1: Pre-op. assessment of fibroids and sarcoma risk (Ultrasound)(Hysteroscopy)

Hysteroscopic myomectomy: past, present and future

Discussion

11:00 – 11:30 Coffee break

11:30 – 12:30 Abnormal uterine bleeding (endometrial causes) Case report

Bridge 2: Endometrial polyps, hyperplasia & malignancy (Ultrasound (IETA))(Hysteroscopy)

Discussion

12:30 – 13:30 Uterine malformations

Current classification(s)

Bridge 3: Congenital malformations (Ultrasound, hysterosonography 2D/3D)(Hysteroscopy)

Discussion

13:30 – 14:30 Lunch

14:30 – 15:15 Obstetrical complications

Bridge 4: Cesarean scar defect & placental remnants (Ultrasound)(Hysteroscopy)

Discussion

15:15 – 15:45 Ultrasound videos / live scanning

15:45 – 18:00 Hands-on ultrasound and operative hysteroscopy

Wednesday 27.05.2020

Workshop Day

In office surgical hysteroscopy: mini-resectoscope

The half-day course provides tips and tricks on how to set up an outpatient hysteroscopy suite, the equipment required and knowledge to develop outpatient operative hysteroscopy skills.

After this workshop, attendees will aim to:

Understand the basic working elements of a hysteroscope, resectoscope, morcellators and fluid management system.

Understand fundamentals of a successful out-patient hysteroscopy clinic both diagnostic and operative.

09:00 – 09:10	Welcome, Introductions and Course Overview –
09:10 – 09:30	The introduction of miniaturized technology in hysteroscopic surgery
09:30 – 09:50	mechanical instruments/bipolar electrode, tissue removal system
	“In office” hysteroscopic service terminology, setting, instrumentation and set up
09:50 – 10:10	Base of hysteroscopic surgery energy, distention media and complications
10:10 – 10:20	Coffee
10:20 – 10:40	How to perform hysteroscopy in an office setting “In-office” based hysteroscopy
10:40 – 11:00	Mini-resectoscope in cervical canal pathology treatment
11:00 – 11:30	Mini-resectoscope for polyps submucosal myomas and septate uterus/mullerian anomalies –
11:30	Adjourn

Giampietro Gubbini,
Mario Franchini,
Amal Drizi,
Adel Sedrati,
Alessandro Loddo,
Bart de Vree

Thursday 28.05.2020

DAY 1

Thursday May 28/2020

08:00 - 09:00

Inscription and Coffee

MAIN LECTURE ROOM

09:00 - 09:30

Official Opening

09:30 - 10:00

Ornella Sizzi Lecture: "Endoscopic Surgery we have achieved so much, but where should we go next?"

Ellis Downes

UK

10:00 - 10:30

Keynote lecture: "What are the same mistakes in LACC and LAP2 studies?"

Chyi -Long Lee

Taiwan

10:30 - 11:30

Patients cases from diagnosis to solution

Kurian Joseph

India

11:30 - 13:00

Live Surgery Karl Storz Se & Co KG - Medtronic **Mario Malzoni : Collaboration ISGE- AAGL - Surgery U**

Chair: Miroslav Kopjar - Resad Pasic

13:00 - 14:00

Box Lunch Symposium

ROOM 1

14:00 - 16:00

Back to Basics in MIGS αHow to treat pelvic floor disorders

Chair: Ruben Van Spauwen - Rob O' Shea - Günter Noé

14:00 - 14:15

Vaginal approach on prolapse and urinary incontinence Overview on vaginal repair techniques using native tiss

Ajay Rane

Australia

14:15 - 14:30

Colposuspension still an option for SUI

Guenter Noé

Germany

14:30 - 14:45

Laparoscopic sacral colpopexy

Ruben Vanspauwen

Belgium

14:45 - 15:00

Laparoscopic repair using native tissue Successful Prolapse Surgery- Laparoscopic options in this new parad

Robert O' Shea

Australia

15:00 - 15:15

Laparoscopic pectopexy an apical alternative combined with native tissue repair facts and data

Guenter Noé

Germany

15:15 - 15:30

Minimal Invasive Surgery in Suspension of Pelvic Organs

Slavko Oreskovic

Croatia

15:30 - 15:45

Laser and Plasma Rich Platelet Therapy αWhere do they fit in Prolapse and incontinence therapy?

Robert O' Shea

Australia

15:45 - 16:00

Questions & Answers

16:00 - 16:30

Coffee Break

ROOM 1

16:30 - 18:00

YES Presentations Hisham Arab price

Chair: Hisham Arab - Rob O'Shea - Paya Pasic

16:30 - 16:40

Opportunistic bilateral salpingectomy (OBS) and prevention of ovarian carcinoma.

Anne Sophie Maryn

Belgium

16:40 - 16:50

TLH on 7.4 kg uterus.

Megan Cesta

USA

16:50 - 17:00

Out patient hysteroscopy in postmenopausal women with cystic atrophy

Tanvir Tanvir

India

17:00 - 17:10

17:10 - 17:20

17:20 - 17:30

17:30 - 17:40

17:40 - 17:50

17:50 - 18:00

ROOM 2

14:00 - 16:00 Back to Basics in MIGS Hysteroscopy The Fundamentals and the Teaching

Chair: Linda Bradley - Amal Drizi - Bart De Vree

14:00 - 14:30 Keynote lecture: "My hysteroscope my stethoscope".
 14:30 - 14:45 Endometrial inflammation: between past and future.
 14:45 - 15:00 Pain management during office hysteroscopy
 15:00 - 15:15 Isthmocele current opinions and hysteroscopic approach
 15:15 - 15:30 Hysteroscopic myomectomy. From basics to advanced
 15:30 - 15:45 Is there still a place for Hysteroscopic Endometrial Resection?
 15:45 - 16:00 Questions & Answers

Linda Bradley USA
 Amal Drizi Algeria
 Alessandro Loddo Italy
 Adel Sedrati Algeria
 Sanket Pisat India
 Bart de Vree Belgium

16:00 - 16:30

Coffee Break

ROOM 2

16:30 - 18:15 Back to Basics in MIGS Hysteroscopy The evolution, Outpatient applications

Chair: Stefano Bettocchi - Meenu Agarwal - Adel Sedrati

16:30 - 17:00 Keynote lecture: "Intra-uterine adhesions management: past, present and future".
 17:00 - 17:15 Microcolpohysteroscopy.
 17:15 - 17:30 Hysteroscopic morcellation.
 17:30 - 17:45 Hysteroscopic surgeries to improve the results of IVF
 17:45 - 18:00 Overview and Experience and future developments with transvaginal Endoscopy in infertility
 18:00 - 18:15 Trans-Vaginal surgery an innovative way to improve fertility

Mark-Hans Emmanu The Netherlands
 Luigi Montevicchi Italy
 Giuseppe Bigatti Italy
 Meenu Agarwal India
 Vesna Kapitovic Serbia
 Antoine Watrelot France

ROOM 3

14:00 - 16:00 Nurses and Hysteroscopy

14:00 - 14:30 Office Hysteroscopy clinic -Day-care Hysteroscopy - Outpatient See-and-treat Hysteroscopy One-Step Bleeding
 14:30 - 15:00 Hurdles setting up an outpatient hysteroscopy service
 15:00 - 15:30 Hysteroscopy / (mini) instrumentation and their daily use
 15:30 - 16:00 Pain Management during outpatient hysteroscopy: the nurse makes it all happen

Bart De Vree Belgium
 Veerle Vuylsteke Belgium
 Nancy Steenbakkers Belgium

16:00 - 16:30

Coffee Break

ROOM 3

16:30 - 18:00 Specific Subjects in view of the future of MIGS

16:30 - 17:00 Keynote: Pelvic Pain: Etiology and Surgical Management. Evidence-based Approach
 17:00 - 17:15 Laparoscopic Hysterectomy: the complications and how to go from here into the future
 17:15 - 17:30 Ablation Therapy the future to treat fibroids
 17:30 - 17:45
 17:45 - 18:00 Questions & Answers

Vadim Morosov USA
 Olav Istre Norway
 Xiaoming Song Peoples Republic China

DAY 2

FRIDAY MAY 29/2020

08:00 - 09:00

Inscription and Coffee

ROOM 1

09:00 - 09:30	Keynote lecture: "Back to Basics in MIGS Cleaning is the longevity of endoscopic Instruments "	Nancy Steenbakkers	Belgium
09:30 - 10:30	Case Reports from Diagnosis to Treatment and Outcome	Kurian Joseph	India
10:30 - 11:30	Nearly Live Surgery Company to be announced	Chair: Adel Shervin - Alfonso Rossetti - Günter Noé	

Coffee During the Nearly Live Surgery

11:30 - 12:00	Master Lecture: "Hysteroscopy from Basics to Future applications the philosophy"	Stefano Bettocchi	Italy
12:00 - 12:30	Master Lecture: "Basic in minimally invasive gynecologic oncologic surgery- strategies for reducing rec	Massaki Andou	Japan
12:30 - 13:00	Master Lecture: "Why the knowledge of retroperitoneal anatomy is mandatory for all gynecologists"	Arnaud Wattiez	Dubai
	Total Laparoscopic Hysterectomy - 25 years od experience to look into the future	Miroslav Kopjar	Croatia

13:00 - 14:00

Box Lunch Symposium to be announced

ROOM 1

14:00 - 16:00	Hysterectomy		
14:00 - 14:30	Keynote lecture: "From Vaginal Hysterectomy to Laparoscopic Hysterectomy is there a need?"	Andreas Chrysotomou	South Africa
14:30 - 14:45	Patient selection for minimally invasive hysterectomy	Dusan Djokovic	Portugal
14:45 - 15:00	The simple hysterectomy without a robot	Duncan Turner	USA
15:00 - 15:15	"Size Matters"- approach to laparoscopic hysterectomy in the obese patient	Shan Biscette	USA
15:15 - 15:30	Are there benefits of Laparoscopic Subtotal Hysterectomy (LSH)	Lilo Mettler	Germany
15:30 - 15:45	TLH in women with Previous abdominal surgery	Prashant Mangeshkar	India
15:45 - 16:00	Single-port transvaginal hysterectomy that combines Vaginal hysterectomy, robotics and laparoscopy	Robert Zurawin	USA

16:00 - 16:30

Coffee Break

ROOM 1

16:30 - 18:00	Laparoscopy: Back to Basic Techniques and Instruments		
16:30 - 16:45	Techniques of laparoscopic ovarian cystectomy, hemostasis and suturing. (basic)	Ameneh Haghighi	Iran
16:45 - 17:00	Basic Instruments and techniques in laparoscopic surgery	Eddy Hartono	Indonesia
17:00 - 17:15	Electrosurgery	Annelize Barnard	South Africa
17:15 - 17:30	Laparoscopic myomectomy.	Rastko Maglic	Serbia
17:30 - 17:45	Laparoscopy treatment of adnexal masses - Montenegro experience.	Vojislav Miketic	Montenegro
17:45 - 18:00	Laparoscopy in Pregnancy	Hisham Arab	Saudi Arabia

ROOM 2

14:00 - 16:00	Surgical correction of uterine cavity, the endometrium and prevention of complications		
14:00 - 14:30	Keynote Lecture: "Microhysteroscopy and endometrial physiology".	Stefano Bettocchi	Italy
14:30 - 14:45	Hysteroscopic management of uterine malformations.	Rahul Machanda	India
14:45 - 15:00	Severe cases of RPOC fully treated in office setting	Lubomir Mikulasek	Czech Republic
15:00 - 15:15	Endometrial scratching: the facts before and now	Antonio Simone Lagai	Italy
15:15 - 15:30	Hysteroscopic Surgery: prevention of complications	Peter Török	Hungary
15:30 - 15:45	The mini-resectoscope in hysteroscopic surgery	Giampietro Gubbini	Italy
15:45 - 16:00	Questions & Answers		

16:00 - 16:30

Coffee Break

ROOM 2

16:30 - 18:00	Best video presentations ISGE prize	Chair: Viju Thomas - Amal Drizi - Sanket Pisat	
	Video's of 10 minutes on endoscopic subject		
16:30 - 16:40	Ischial colpopexy-laparoscopic prolapse treatment without mesh	Sanjay Shanbhag	India
16:40 - 16:50	Hysteroscopic separation of severe intrauterine adhesions	Junije Wang	Peoples Republic China
16:50 - 17:00	V-NOTE technique using in sacrospinous vaginal fixation procedure for pelvic organ prolapse treatment	Wenyan Wang	Peoples Republic China
17:00 - 17:10	Laparoscopic difficult total hysterectomy	Jim Wang	Peoples Republic China
17:10 - 17:20	Total Laparoscopic hysterectomy	Jullie Bettendorf	Belgium
17:20 - 17:30			
17:30 - 17:40			
17:40 - 17:50			
17:50 - 18:00			

ROOM 3

14:00 - 16:00 ENDOSCOPY & ONCOLOGY

14:00 - 14:30	Keynote lecture: "Laparoscopic Treatment of Ovarian Cancer"	Herman Haller	Croatia
14:30 - 14:45	Ovarian sparing surgery in borderline and malignant ovarian disease.	Fatima Ahankour	Belgium
14:45 - 15:00	Sentinel Node detection in Endometrial Cancer	Borut Kobal	Slovenia
15:00 - 15:15	Inbag-morcellation	Michael Anapolski	Germany
15:15 - 15:30	Complications of Oncological Endoscopic Procedures	Iztok Takac	Slovenia
15:30 - 15:45	Prohylactic salpingectomy as prevention of ovarian cancer	Katarina Stefanovic	Serbia
15:45 - 16:00	Questions & Answers		

16:00 - 16:30

Coffee Break

ROOM 3

16:30 - 18:00 Free Communications 8 min lecture 2 min discussion 9X

16:30 - 16:40	Tissue extraction. Tips and tricks of contained morcellation	Espen Berner	Norway
16:40 - 16:50	Introduction of the new procedure in UK - Laparoscopic Pectopexy - two years follow up study.	Zbigniew Tkacz	Scotland
16:50 - 17:00	Hysteroscopic vs Laparoscopic management of the "Niche": When to treat isthmocele?	Istvan Argay	Hungary
17:00 - 17:10	Laparoscopic surgeries and complications in our clinic	Midori Okumura	Japan
17:10 - 17:20	Laparoscopic tubal recanalization after ectopic pregnancy	Yiqun Jiang	Peoples Republic China
17:20 - 17:30	Selection of dissection line for complete laparoscopic extraperitoneal para-aortic lymphadenectomy	Shiori Yanai	Japan
17:30 - 17:40	Hysteroscopic treatment of Retained Products of Conception (RPOC)	Espen Berner	Norway
17:40 - 17:50	Case report on complications of Laparoscopic Sacrohysteropexy - Non-Infectious Discitis and removal	Zbigniew Tkacz	Scotland
17:50 - 18:00	laparoscopic Ischial colpopexy-first follow up data	Sanjay Shanbhag	India

DAY 3

Saturday May 30/2020

08:00 - 09:00

Inscription and Coffee

ROOM 1

09:00 - 10:30

Reflecting on the Past towards the Future Part 1

09:00 - 09:30

Keynote lecture: " Adhesion Prevention - Affordable and Manageable"

09:30 - 09:45

The use of Laser in Office Hysteroscopy: The Future?

09:45 - 10:00

The role of Laparoscopy in the Treatment of Adnexal Masses Today and Tomorrow

10:00 - 10:15

Uro-gynecological complications of endoscopic procedures

10:15 - 10:30

Energy and Endoscopic surgery

Daniel Kruschinski Germany

Branca Zegura Slovenia

Igor Pilic Serbia

Adolf Lukanovic Slovenia

Andrew Brill USA

10:30 - 11:00

Coffee Break

ROOM 1

11:00 - 13:00

Reflecting on the Past towards the Future Part 2

11:00 - 11:30

Keynote lecture: "The history of instrumentation of laparoscopy and view in the future"

11:30 - 11:45

Accreditation in Endoscopy ISGE how the future should be

11:45 - 12:00

Fertility sparing approach in Ovarian malignancies our experience and view in the future

12:00 - 12:15

Single Site Surgery in Gynecology: tips and tricks

12:15 - 12:30

Endometrial Ablation Past, Present and Future

12:30 - 12:45

Ovarian Drilling in the Treatment of PCOS today's situation projected into the Future

12:45 - 13:00

Questions & Answers

Fabio Ghezzi Italy

Bruno van Herendael Belgium

Zoran Viledecic Serbia

Yan Kuang Peoples Republic of China

Zoran Pitner Croatia

Dinca Pavicic Balcan Croatia

ROOM 2

09:00 - 10:30

Endoscopy and Endometriosis Part 1

Chair: Adel Shervin - Alfonso Rossetti - Togas Tulandi

09:00 - 09:30

Keynote lecture: "Classification in Endometriosis : Enzian classification Why?"

09:30 - 09:45

Revisiting pathophysiology: lessons from extra-pelvic endometriosis

09:45 - 10:00

Endometriosis Hidden diagnosis in hidden places

10:00 - 10:15

Treatment of the urogenital endometriosis

10:10 - 10:30

Questions & Answers

Joerg Keckstein Austria

Togas Tulandi Canada

Resad Pasic USA

Edin Alagic Norway

10:30 - 11:00

Coffee Break

ROOM 2

11:00 - 13:00

Endoscopy and Endometriosis Part 2

Chair: Joerg Keckstein - Helder Ferreira - Adel Shervin

11:00 - 11:30

Keynote lecture: "Surgical Management of endometrioma"

11:30 - 11:45

Facts and Views on bowel Endometriosis is there a place for Ghost Ileostomy

11:45 - 12:00

Respect for the Pelvic Nerves in Endometriosis surgery

12:00 - 12:15

Surgical Treatment of Infertile Patients with endometriosis

12:15 - 12:30

Decision tree for the treatment of ovarian endometriomata in women who are experiencing fertility issues

12:30 - 12:45

Questions & Answers

Adel Shervin Iran

Helder Ferreira Portugal

Viju Thomas South Africa

Krunoslav Kuna Croatia

Charles Miller USA

ROOM 3

09:00 - 10:30

Endoscopy and Oncology Part one

09:00 - 09:30

Keynote lecture: "The role of Hysteroscopy in conservative treatment of early stages of endometrial cancer our experience"

09:30 - 09:45

Sarcoma trial

09:45 - 10:00

Laparoscopic Lymphadenectomy in Gynaecologic Cancer

10:00 - 10:15

Classification of Hysteroscopy images or Early Detection of Premalignant lesions in High Risk Group

10:15 - 10:30

Laparoscopic Radical Trachelectomy for Early-stage Cervical cancer

Aleksandar Stefanovi Serbia

Alfonso Rossetti Italy

Pavao Planinic Croatia

Jorge Enrique Dotto Argentina

Xiangqin Zheng Peoples Republic China

10:30 - 11:00

Coffee Break

11:00 - 13:00

Endoscopy and Oncology Part two

11:00 - 11:30

Keynote lecture: "Laparoscopic Treatment of Cervical Cancer our Experience"

11:30 - 11:45

Laparoscopy in Cervical and Endometrial cancer.

11:45 - 12:00

Radical Laparoscopic Hysterectomy

12:00 - 12:15

Laparoscopic Treatment of Suspicious Adnexal Masses

12:15 - 12:30

Discussion and management of complications after laparoscopic surgery for gynecological malignancies

12:30 - 12:45

Challenges and reconsideration of laparoscopic surgery for early cervical cancer

12:45 - 13:00

Questions & Answers

Deni Karelovic Croatia

Jvan Casarin Italy

Ante Corusic Croatia

Ingrid Marton Croatia

Rong Zhang Peoples Republic China

Ren Yuan Peoples Republic China
